Introduction:
"Overview of Genesis"
Wednesday, September 12
Worship Center, from 9 to 11:00 a.m.

In the book of Genesis we learn about God, humanity, and nature in their mutual relationship. The Creator and Controller of the universe reveals Himself as the Lord and Judge of history, which has a purpose and goal. Doctrines of covenant, grace, and redemption permeate the story of God's action to overcome the consequences of sin and evil. All trace their origins to this remarkable book.

I'm looking forward to studying Genesis with you, starting this Wednesday. Registration is still open so please invite a friend. Thanks.

Look for Warren's emailed updates every Thursday.
