

All-Points Bulletin

Resource Guide

Both the home-remodeling and the real-estate industries make many of their business contacts through referrals. When calling the companies listed here, please mention that you received their names from the Camp Brothers newsletter, *All-Points Bulletin*. Advertisers have agreed to be more responsive to your call.

California law requires contractors taking jobs that total \$300 or more (labor and materials) to be licensed. State law also requires that contractors include their license numbers on all advertising. Check out your licensed contractor by calling the Contractors State License Board at 800-321-2752.
